Our Story

Farming Forms Our Foundation

It started on the Edgar family farm, acquired by the Edgars in early 1900. Grains weren't the only thing being sown on the humble farm in Paris, Ontario. Grit and passion for sustainable agriculture have been central values across the Edgar family's generations. Great beer is grown here on the Von Edgar Hopyard.

02:48

The Stars Aligned to Create Superior Beer

The Edgar family's foray into brewing all started with their encounter with newly emigrated German Master brewer Christian von Der Heide. Joining forces with Christian was a no-brainer, considering his impressive background in brewing and experience growing up on a farm. With Christian's expertise, the Paris Beer Company was established. A partnership built on synergies, providing dynamic concoctions and flavour profiles characteristic of the local terroir but with a worldly twist.
